

M Talha Jameel

Web Developer (MERN + AI) | Data Analyst | AI/ML Learner

✉ muhammadtalhajameel475@gmail.com ☎ [+92 321 1912419](tel:+923211912419) 📍 Lahore, Pakistan 🌐 [linkedin.com/in/Talha](https://www.linkedin.com/in/Talha)

SUMMARY:

Final-year Software Engineering student seeking an entry-level role in Machine Learning and Web Development. Passionate about building real-world, data-driven solutions, with hands-on experience developing AI-powered applications such as a Roadmap Tracker and accessibility-focused tools. A strong problem-solver with a focus on creating practical, user-centered solutions through analytical thinking and innovation.

PROFESSIONAL EXPERIENCE:

DeveloperHub Corporation:

20/5/25 – 30/08/25

ML Intern

- Created ERD reports to structure and analyze system data requirements for better database design and understanding.
- Performed data analysis and trained a YOLOv8-based helmet detection system, contributing to workflow optimization and generating meaningful visual insights for safety monitoring.

EDUCATION:

BS in Software Engineering

Aug 2023 / Sep 2027 (Expected)

University of Agriculture, Faisalabad Focus: AI/ML, Full-Stack Development

SKILLS:

Technical Skills :

- **Languages & Backend:** Python (Intermediate), JavaScript, Java, Node.js
- **Frontend Development:** HTML, CSS, Bootstrap, Responsive Design
- **Machine Learning & AI:** Pandas, NumPy, Scikit-learn, YOLOv8, NLTK, OpenCV (cv2), NLP, Generative AI
- **Data Science:** Pandas, NumPy, Matplotlib, Seaborn, Exploratory Data Analysis (EDA), Feature Engineering, Regression, Classification
- **Large Language Models & APIs:** Prompt Engineering, LLM Evaluation, OpenAI API, Groq API, Google Gemini API
- **Core Skills:** Problem Solving, Debugging, Requirement Analysis, UI/UX designing, Client Communication

Tools :

- | | | | |
|--------------------|------------|------------------|-------------------|
| • VS Code | • Git, | • Excel | • n8n |
| • Jupiter Notebook | • GitHub | • Android Studio | • Adobe Photoshop |
| • Google Colab | • Power BI | • Anaconda | • CPTracer |

PROJECTS:

FutureForge — AI-Powered Career Assistant

HTML · CSS · Node.js · OpenAI API · Google Gemini API

- Developed an AI-powered career guidance system that analyzes user inputs and generates personalized study and career paths.
- Designed an intelligent conversational flow with LLM integration to provide adaptive recommendations and a clean, user-friendly interface for students.

DevTracker — AI-Powered Roadmap Tool

HTML, CSS, Groq API, WhatsApp Integration

- Built an AI-driven learning roadmap platform that generates structured study paths and enables users to track their learning progress.
- Integrated automated WhatsApp notifications for reminders and updates to improve consistency and learning engagement.

HelmetVision — Smart Helmet Detection System

Python · OpenCV · YOLOv8 · Node.js

- Developed a real-time computer vision system using YOLOv8 to detect helmet compliance from road footage.
- Integrated detection outputs with alert mechanisms to enable safety monitoring and rule enforcement.

Weather Analytics Dashboard

Power BI · Python · Pandas · NumPy

- Created an interactive dashboard for analyzing weather patterns and trends, delivering clear insights into seasonal variations and data distributions.
- Processed and transformed datasets to generate meaningful visualizations in Power BI for decision-making support.

CERTIFICATES:

- Google AI Essentials Specialization - (Coursera, 2025),
- Introduction to Generative AI - (Google Cloud, 2025)
- Google Prompting Essentials - (Coursera, 2025)
- Crash Course on Machine Learning - (Codebeetle, 2025)
- Crash Course on Python - (Codebeetle, 2025)
- Power BI - (WS-Cube, Jan 2025)
- Web Development - (Sylani, 2024)
